

Two Best Practices as per the annexed format are attached

Best Practices-I

Title of the Practice: Creation of Science Stream.

Goal:

- To endeavor in order to initiate the science stream in the College.
- To encourage and create an environment for pursuing higher studies in science stream.
- To encourage the students of the neighbouring community to develop a scientific and research-based mindset by taking up careers related to the science stream.
- To help the economically backward students belonging to different communities situated near the College to pursue higher studies in science stream who would otherwise not be able to go to far off places to study in Science stream.

The Context:

Tingkhong College is situated in a rural area whereby the people have very less access to scientific knowledge. Hence, it becomes very important for the College and its members to actively take part in an initiative to become a harbinger of Scientific study and knowledge in the community.

- To help the students of the backward communities who wish to pursue a career in science and technology.
- To eliminate all forms of superstitious and evil practices through the scientific knowledge that the students would gain by means of pursuing higher education in Science stream.
- To increase the employability of the students.

The Practice:

- The College authorities have discussed and carefully laid the groundwork for initiating the science stream in the College.
- A general meeting was held in the College premise to help start the process of bringing the science stream in the college.
- A dedicated team of faculty members and representatives of the College met the honourable MLA of the constituency.

Evidence of Success:

- An announcement was made by the State Government that the College has been selected for being granted the Science stream.
- On the basis of the announcement a grant was allotted by for setting up the science stream.

Problems Encountered and Resources Required:

- Non-availability of funds.
- Difficulty of obtaining different official orders and conducting different official procedures.

Best Practice- II

Title of the Practice: Creation of a healthy Parent – Teacher Relationship

Goal of the Practice:

- To forsake the traditional rigid model of teacher-student relationship and make the teacher a part of the personal circle of a student's life.
- To create a rapport between the teachers and the guardians of the students who otherwise remain unaware about the day to day events of the College.
- To provide emotional and mental support to the guardians in their moments of dire crisis.
- To enhance the community presence of the members of Tingkhong College.

The Context :

Tingkhong College mostly caters to that section of the society that is downtrodden and economically vulnerable. Without proper education and knowledge the parents and guardians of the students are unable to understand anything about the progress of the students. Hence, a practice like this is the need of the hour.

- Update the parents/ guardians about the progress of the students and the areas where improvement is needed.
- To help the parents/ guardians understand the current academic programs and the manner in which the students are evaluated.
- To help them understand the importance of internal marks and subsequently of the attendance of the students who mostly miss classes due to the household chores.
- To create a cordial relationship between the parents, teachers and the administrators of the institution.

The Practice:

- Holding biannual parent/guardian meetings.
- Encouraging the departmental HoDs to remain in touch with the parents and guardians of the students.
- Developing an effective feedback machinery that facilitates the pleas and queries reach the desk of the administrators.
- Hold extensive extension activities in the villages of the students to develop a close relationship between the members of the College and the community members.

Evidence of Success:

- Increased attendance of students.
- Active participation of parents and guardians in the activities related to the welfare of the college.
- A satisfactory enrollment rate of students each year.
- Active participation of the parents and guardians in solving the problems of the college and making the management aware about the issues that need more attention.

Problems Encountered/ Materials Required:

- A large number of parents and guardians who daily wage earners are very hard to access.
- A lot of convincing was required for these parents and guardians to attend meetings as most of them were intimidated.
- The members of the College had to devise a strategy to receive feedback from the parents and also to address the issues that they have raised.
